Highly-motivated employee with desire to take on new challenges. Strong worth ethic, adaptability and exceptional interpersonal skills. Adept at working effectively unsupervised and quickly mastering new skills.

EXPERIENCE

12/2021 – CURRENT

SENIOR SYSTEM ASSOCIATE, INFOSYS LIMITED

PROJECT: FINACLE

A banking application used by bankers, providing banking solutions to customers. It has a wide range of functionalities including opening personal and business accounts, making deposits and much more.

Responsibilities:

- Acted as a versatile professional, serving as both a Database Administrator (DBA) and a Tester.
- Installed, configured, diagnosed, and maintained Web Applications, ensuring uninterrupted service.
- Managed the patching process for applications and offered technical support for IBM WebSphere, WebLogic and JBoss Applications.
- Proficiently created, migrated and maintained Oracle, Mongo and PostgreSQL Databases.
- Translated manual test cases into live applications and conducted both automated and manual API testing.
- Successfully installed, configured, deployed images, and provided technical support for Docker and Kubernetes (K8S)-based Web Applications.
- Configured automated tasks such as Patch Deployment, DB Refresh, and Application Restart using Jenkins.
- Developed, managed, and executed comprehensive Test Plans, focusing on the Banking domain.
- Conducted Knowledge Transfer (KT) sessions to ensure team members' proficiency and prepared comprehensive documentation.
- Demonstrated expertise in server maintenance and promptly resolved vulnerabilities to enhance server security.
- Designed and implemented a tool to automate database management, patch deployment, and web application restart processes, consolidating these tasks across different servers into a single, user-friendly interface.
